
***Analytical Technology Transfer for
Today's Business Climate***

Many companies are finding it increasingly difficult to be familiar with each analytical technique, the range of vendors, and important details for each critical application. Vendors are also challenged to understand the critical issues for each industry. Diablo Analytical understands both the analytical technology and the priorities of industrial customers. We provide efficient analytical technology transfer in today's challenging business climate.

Diablo Analytical, Inc.

Analytical Application Specialists

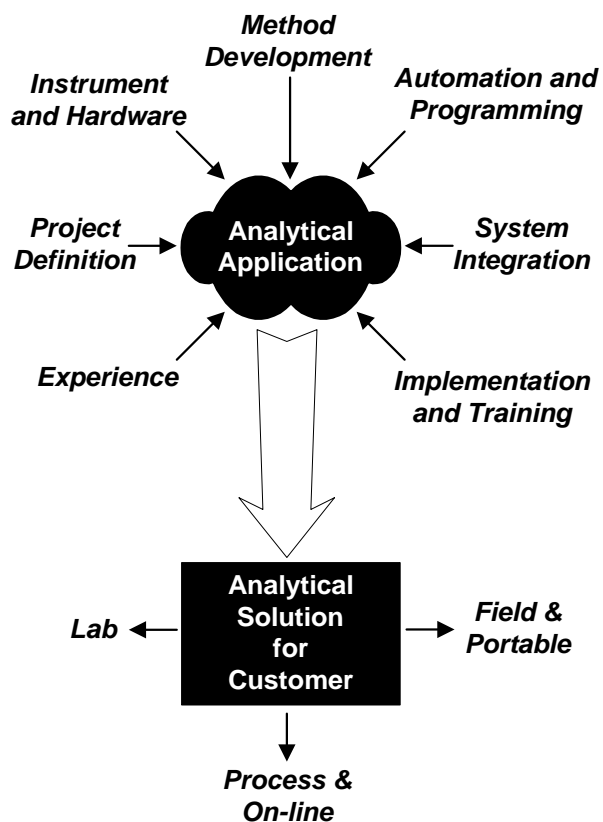

Diablo Analytical, Inc.

1110 Burnett Ave • Suite C
P.O. Box 5889
Concord, CA • 94524

Phone: (925) 609-1150 • FAX: (925) 609-9360
E-mail: diablo@diab.com

Analytical Application Development for Industrial Solutions

Analytical solutions are applications customized to produce *information* in the best form for your organization. Efficient development and implementation of analytical applications are essential for providing cost-effective, reliable, and valid analytical solutions. Diablo Analytical's experience with analytical chemistry and the priorities of industry will save you time, resources, and reduce your overall implementation costs.

Diablo Analytical, Inc.

Areas of Technology and Experience

Separation Science

- Gas chromatography
 - Mass spectrometry
 - Atomic emission detection
- Ion chromatography
- Liquid chromatography
- Capillary electrophoresis
- High-speed separations

Spectroscopy

- Mass spectrometry
- Infrared / FTIR

Process Analysis

- High-speed gas chromatography
- Mass spectrometry
- FTIR
- Sampling systems
- Portable analysis systems

Automation and Programming

- Custom programming for:
 - HP ChemStations
 - Nicolet Omnic FTIR data system
 - Other Windows data systems
- Visual Basic, VBA, Excel macros
- Data reduction and summary
- Data flow and storage
- Data acquisition
- QA / QC, and statistical techniques

Target Clients and Industries

Our clients range from large chemical and petrochemical companies to small manufacturing and technology companies.

- Petroleum refineries and chemical manufacturers
- Semiconductor manufacturers and suppliers
- Analytical equipment manufacturers
- High-Tech manufacturers and R&D
- Environmental engineering firms
- Biotechnology companies

Facilities

Diablo meets project demands by working in either your facility or our own development laboratory located in Concord, California.
